### Introducing Milton Melamine

What you eat at home may be a nutritional meal. However, a wrong choice of tableware could be more harmful than you think. To keep your food secure, Milton introduces from its state of the art manufacturing unit at Haridwar, the Milton Melamine a range of safe, non-toxic dinnerware.

Milton believes that nothing provides assurance like purity. Hence the Milton Melamine range Made of pure melamine, It contains 0% Urea Formaldehyde. Urea Formaldehyde, which is generally used in melamine crockery, tends to mix with food and release toxins that can cause respiratory disorder, allergy or even cancer. Unblemished by such impurities, the Milton Melamine range is 100% hygienic.

Further, not only hygienic unique purity of Milton Melamine makes the range real break resistant, bright, scratch, and wrinkle free for years.

Milton Melamine crockery is also heat-resistant upto 140° Celsius, so you can serve hot and yummy food without a worry. Choose Milton Melamine to make everyday dining a carefree and chic option. After all, if you are looking for safety, whom better to trust that Milton - a brand that has been providing you quality products since 1972.

Melamine

Milton Melamineware doesn't contain impurities. Result?

It doesn't stain over time, doesn't dull and looks just as stunning as ceramic. Being 100% pure, it also ensures that no impurities enter your food, even when you serve steaming hot meals in it!
