In 2017, Starke was started in United Arab Emirates (UAE) by an enterprising business man with 37 years of experience in manufacturing porcelain and stoneware tableware.

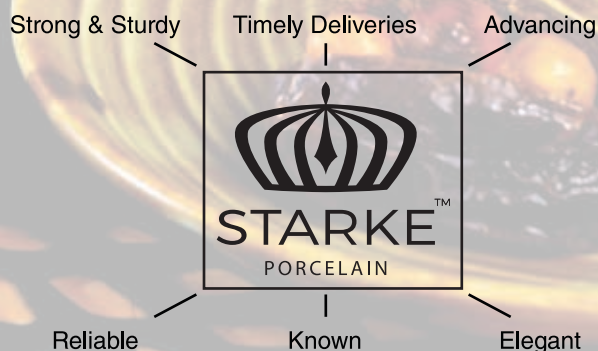

Putting expertise to work the Starke team travelled around the world to find the right factories that excelled in manufacturing their unique design moulds with unmatched quality.

Every range of Starke comes from a different unit that specialises in its kind of production. Currently we manufacture our products in 6 different factories across the Globe.

Starke team strongly believes that the real test of time is meeting client satisfaction, which is why we weigh product quality and customer service equally.

Delivering quality products, matching delivery timelines, answering all client queries promptly is a promise that Starke is here to keep!

Besides everything, our team knows that every day is a new learning experience, which is why we are open to customer feedback and incorporating personalised customer requirements at every step.

ADVANTAGES

MICROWAVE SAFE

DISHWASHER SAFE

**SUITABLE FOR

SELF EMBOSSED

Alluring style and hidden strength, our Self Embossed porcelain design is perfect for all-day dining, fine dining and banqueting environments.

This collection contains three distinguished patterns called Mable, Lines & Rio. The complete collection offers multiple level presentations through a series of wide rim gourmet plates, rim platters, coupe platters and accessories.

Self Embossed is designed to elegantly withstand the demands of today's robust commercial environment.

Patterns Available:

STUDIO

The Studio range exhibits beautifully handcrafted look and feel, with each piece being subtly different and unique due to its hand applied decoration.

The drama and sophistication of the range is in sync with the current trend of hand-painted speckled tableware. However, what sets our Studio range apart is the durability of its vitrified porcelain body, which works perfectly for fast paced kitchens.

With its six striking color ranges, namely Earthen, Rustique, Smoke, Marine, Pure and Ruby, the Studio range creates table tops that diners will never forget.

Colors Available:

STUDIO EARTHEN

MODERN DINING

A unique tableware collection with an elegant and organic twist towards the new age dining concept. With the ability to transition through dining styles from laid back casual to fine formal and through into breakfast buffets and outdoor dining, our 'Modern Dining' range allows operators to deliver a truly innovative dining experience.

This collection contains two aesthetic ranges called the Urban & the Fusion collection.

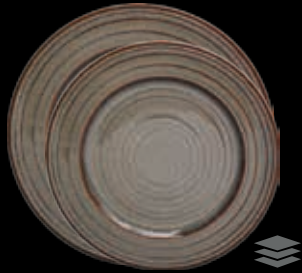

The subtle textures and natural color palette of these collections allow them to mix well in multiple different environments.

ARTISANAL STONEWARE

Keeping up with the market trends of Stoneware tableware, Starke Porcelain has launched multiple ranges under the Artisanal Stoneware collection with exuding style and robustness.

Many of these ranges celebrate the chance effects and reactions which occur in the kiln, hence create the exclusivity of each piece.

The range embodies textures, matte finishes, reflective surfaces, geometric patterns and reactive glazes that allows Chef's the perfect canvas for creative food presentations.

Coffee Mug Black & White
ST-CCWB-CM | Size: 10 oz

Coffee Mug Navy & White
ST-CCWN-CM | Size: 10 oz

HOW TO TAKE CARE OF YOUR CHINAWARE

With careful handling, your products will still look good after many years of service

STORAGE & HANDLING

1. Always have sufficient stock, as correct rotation and careful handling will extend service life and reduce the replacement cost.
2. Always use appropriate racks for storage. Make sure the handles/spouts do not knock together when stored.
3. Using trays or trolleys when clearing tables will reduce excessive and/or unnecessary handling and prevent items from coming into contact with each other.
4. Minimize the contact with soft metals to reduce metal marking, this can be caused by stacking product with metal ancillary items such as teapots; and scrape with metal countertops.
5. To avoid scratching the glazed surface, take care when handling to ensure that two surfaces do not excessively slide over one another.

Sometimes, damage may be caused by the incorrect washing of your product. To avoid this unnecessary damage and to preserve the appearance of your purchase, follow these recommendations while washing your ceramics.

WASHING

1. Wash before using for the first time and ensure items are washed promptly after each use.
2. Use plastic or rubber scrapers to remove leftover food from plates before washing, as metal utensils or abrasives may damage the glazed surface.
3. Plastic racks are recommended, with compartmented boxes for cups/mugs, as plastic covered metal baskets can cause metal marking when they become worn.
4. Use a recognized de-stainer to remove stubborn marks as strong detergents and/or excessive concentrations will attack glaze and damage surface decoration.
