

simple is beautiful

We are Nude

We live in a confusing world;
too many choices, too many products,
too much 'noise'.

But Nude believes things can be
different; the remedy simple.

Simple is beautiful, pure, clear,
transparent.

Simple is useable, clean, uncluttered,
practical.

Simple is convenient, reliable,
professional.

Simple is all of these things,
and also the reason why things are so
rarely simple.

Nude considers actual and specific
needs then refines them to their
essence. The final object is thus both
easy to understand and work with.

Nude believes less equals more that
form works best when it meets function.
Where everything is appropriate in the
right place at the right time the right
delivery for the right need.

Nude also believes in an 360 degree
approach, where the entire architecture
of the dining experience is taken into
account. Our products are thus created
to enhance and enliven the atmosphere
of dining, whether in a bar, bistro,
or restaurant.

Nude glassware is always fit for purpose.
It is practical, sturdy, and usable.
We pay huge attention to our clients
needs, and never lose sight of the need
for functionality.

This idea of practical and aesthetic
integration is the guiding principle behind
Nude, and is reflected both in our mind
set and our culture.

The result is our promise reflected in
glass.

It is simple...

It is Nude.

The Nude Style and Design Vision

Contemporary

One of our missions is to design and create collections of lead-free crystal glass specifically manufactured for the hotel and restaurant industry. Our focus is on delivering elegant, practical, and relevant solutions for the modern dining and entertaining experience nothing more, nothing less.

Simple

Nude believes simple is beautiful, that form is function, and less is more. This is equally true when it comes to the way we do business. We like to build straightforward, simple, and long-term relationships serving the needs and requirements of everyone involved.

Sensuous

Nude takes pleasure seriously and recognises the importance of establishing a dynamic and vibrant atmosphere. Attention to detail is paramount, yet at the same time there must always be room for people to feel comfortable, to breathe. Nude glassware supports and embellishes rather than overwhelms, the immaculate crystal adding a sense of refinement and beauty to any environment.

Experimental

Nude is never afraid to take risks. We feel it is the only way of creating something inspirational. Individuality is important, and Nude fearlessly investigates innovative ideas. We are constantly inquisitive and work hard to develop dynamic collaborations with artists and designers. At the same time, we make sure to retain a sense of simplicity and fun.

A new era... A new dining experience.

When it comes to precision glassware, Nude offers a complete solution for the hospitality industry. Known for our design excellence, our portfolio delivers exceptional products. But we believe in simplicity. Nothing should detract from the skill of the chef or choice of the sommelier. The character of the restaurant should be enhanced by the elements it contains rather than dominated. Nude glassware is therefore stunning yet subtle, made to blend perfectly with its surroundings, both honouring and adding to the ambience.

While working to deliver the perfect range of glassware, Nude also focuses on practical requirements.

Our lead-free crystal is designed to marry excellence with dependability and practicality. This respect for the realities of the hospitality industry lies at the heart of our relationships with our business partners.

Our dedication and services

professionals

Simple is beautiful

Nude Wine

Our extensive range of wine glasses is something Nude are both known for and are proud. We understand that people like wine are varied, with a multiplicity of tastes and needs. To celebrate that fact, we have created a wide selection of wine glasses - both hand and machine made - that we feel serve every purpose.

Nude is also aware of the requirements of the hospitality industry and constantly evolve our collections to suit the zeitgeist, attitude and location.

We passionately feel that the choice of glass enhances the drinking experience. It helps establish the dynamic, and finishes the table in a perfect way. Nude wine glasses also add to the sense of ceremony and theatre. They engage with the emotions, intensifying a sense of conviviality. At the same time, Nude never believes in being overprescriptive. Our products solely exist to enliven, encouraging any atmosphere to shine.

Our wine glasses are therefore made for a myriad of locales from the simple to the ornate, the relaxed to the refined. Nude products illuminate the dining space, delivering a reliable and compelling set of qualities best suited to your needs.

Stem Zero 

Introducing Stem Zero made with our 'Ion Shielding Technology'.
Making it the world's toughest, yet finest lead free crystal glass.
You could say it is beautifully strong.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favorite wine.

It couldn't be done, surely?

Our designers at NUDE asked themselves the same question, but after a huge amount of work and dedication have come up with the answer.

We call it... Stem Zero

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

Some look tough but are so fragile.
Some look fragile but tougher than
any other...

The new Stem Zero with Ion Shielding Technology, reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

Stem Zero is a simple and elegant range of highly sophisticated glassware made to satisfy the most discerning wine connoisseur. The glass is so fine and so light that it defies belief. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, allowing you to savour the aroma and taste of wine.

Nude Signature Collections

The Signature Collections are a series of ongoing dialogues between creative genius, exquisite materials and glass. Nude offers the platform, process, craftsmen and the furnace. The design itself is manifested by the collaborating partner who brings their personal values to the process. The Nude Signature Collections push the boundaries of what's achievable, questioning the creative possibility of things. In doing so they deliver items that are both compelling and original.

Ran Arad

Ron Arad

An icon as an architect and industrial designer, Ron Arad has always ignored the notion of formal disciplines and boundaries. He is a creator in the purest sense, his portfolio of work is a testament to his creative genius and free spirit. He defines design as, 'the act of imposing one's will on materials to perform a function. He is a constant innovator, questioning, challenging, re-thinking and reinterpreting the objects that surround our lives. The Ron Arad Signature Collection for Nude includes iconic pieces such as the 'DecanteRing' and 'Wine Party', both masterfully hand-crafted in lead-free crystal.

As someone once said: 'Wine is just a conversation waiting to happen.' It is in that spirit the DecanteRing exists. A symmetrical cylinder of perfectly blown glass, this beautiful artefact enables the wine to breathe properly while letting light and movement play around the liquid. The degree of craftsmanship involved is extraordinary, the glass cut and polished to perfection. A wonderful conversation starter.

Ingenious, playful, intuitive and practical, the Wine Party range is a trio of glasses designed for the party experience. Their precisely-weighted stems allow them to be rested on surfaces and also easily slipped into a pocket or purse. Hands are left free for other purposes. These are perfect for buffet events or business gatherings.

A flirtatious range including a decanter, jug and two glasses. The way the glass leans, mirrors the way people bend closer to hear conversation or whisper a secret. The shape of the glass also makes reference to the tipsy-like state a party engenders. Also note the upside-down wine glasses. No need to waste time when moving from white to red; a twist of the wrist and one can proceed uninterrupted.

Nude Drinks

As well as catering to wine and spirit drinkers, Nude has also created a range of complimentary glasses for other drinks. These work as stand alone items or as part of a set. Nude feels it is important to deliver an integrated experience, where each element of glassware compliments the other. The glasses made for our soft drink range have of course been finished to the exact same high degree of specification.

Nude Spirits & Cocktails

As well as being known for our comprehensive collections of wine glasses, Nude also work across the spirit and mixed-drinks range. Understanding how the correct glass can improve the enjoyment of a drink, we have designed a range that suits a multitude of needs, both from an aesthetic and sensory point of view. At the same time Nude maintains its ethos of keeping things simple, the glass only ever enhancing the experience.

Simultaneously ethereal and worldly, soft and hard, simple but complex, subtle and straightforward, the six-piece Hepburn barware collection embodies the same complexities. The cocktail shaker, mixing jug, martini glass, mixer glass, 'alchemy glass' (for the creation of cocktails with a more intense flavour) and tumbler feature the soft curves and clean lines of the leading lady, and set the scene for creating an experience instead of merely a drink.

'Alba' is Gaelic for Scotland, the collection pays tribute to the spiritual home of whisky. The elegant glasses are punctuated by a hand-engraved and cleverly deconstructed tartan pattern. The decanters, also incorporating the ingenious tartan etching, are punctuated by a unique stopper which leans omni-directionally, inviting the more dedicated whisky lover to point the stopper in the direction of Scotland.

A sophisticated yet witty piece of craftsmanship, the Arch whisky bottle, a set of two glasses, and a matching bowl, are a group of perfectly balanced items that seem to defy logic but sit solidly on any surface. The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The pieces have a subtle interlocking design that allows them to fit together imaginatively.

The Wayne series consists of drinking glasses designed to underscore the aesthetic purity and radiance of crystalline glass. Each piece features a variety of reflections created by bold vertical scoring, equivalent to crisp pleats in a dress shirt. A horizontal channel at the bottom of each glass deepens the luminosity of each. Meanwhile, it clearly distinguishes the upper and lower elements of the objects and enriches the occasional overlay of cuts.

Available in three stem sizes, the Islands collection was designed to be simple, modern, pure and supremely functional. Amplifying these qualities are the transparency and soft brilliance of the glass. With its slightly flared lip, the whisky tumbler directs the spirit's flow to the tip of the tongue, emphasizing its smooth, silken feel in the mouth. Meanwhile, the broad bowl of the glass, tapering toward the top, concentrates the liquid's aroma and flavors, optimizing the sensory experience.

A great white wine, especially one that is young, in order to maximise its depth and complexity, has to be decanted the same way as red wine. Yet as decanting takes place, it's important to maintain the cool temperature of the wine. To make sure of this, we have created a range of carafes and decanters especially for white wines. They allow full aeration and, at the same time, keep the wine chilled.

Studio FormaFantasma emphasize the manual genius and honor the traces left by the artisan's hand during the crafting of their tableware. Pigmento re-interprets a traditional hand-making technique used to add hue to glass in the process of mouthblowing an object, an intuitive process that generates a different result every time. Through the milky material, amorphous accents of colourful pigments are blown, smoke-like, emphasizing the serendipity and uniqueness of each piece.

A hand-blown dome of transparent glass, the Fromage makes a stunning table display. Sitting on a circular slate base, the glass is in the form of a giant teardrop allowing air to circulate around the contents. A small vent blown into the glass prevents food from 'sweating'. Nude Decoration

To complete the dining and hospitality experience, Nude have created a number of expertly-made glass items which we feel add character and personality to the table. Still honouring the sensibility of simplicity and style, these items deliver the finishing touch. We passionately believe that glassware should be a dynamic part of the room, helping to create both atmosphere and theatre. These pieces reaffirm the notion that for Nude, hospitality is not simply about catering, but creating.

An amusing pair of matching water jugs with integrated mouth-blown glass cups in clear or green. The cups, decorated with a sleeping face, also work as a stopper, helping to keep the contents of the jug fresh.

A clear, or green glass night-lamp set on an ingenious oak base. The soft curves of the shade are both homely and inviting, the light creating a soft glow around the room. The sympathetic combination of glass and wood suggests both nature and nurture.

Exquisitely sculptured glass ornament designed by Istanbul-based Ali Bakova. Shaped as the top half of a human skull, the ornaments rest on a flat base. They come in jet black, crystal clear, and opaque white glass. The pieces come in two sizes, offering a bold or subtle addition to any desk or bookshelf. The glass is cut in sharp prismatic strokes, reflecting the light in a powerful way. They are iconic items, and the centrepiece of the Nude Memento Mori collection. The skulls act as a constant reminder of our mortality, and an inspiration to live life to the full, making the most of every moment we have.

Inspired by his Punk Rock roots, Erdem Akan has always been keen to mix the dramatic with the playful. While respecting the beautifully macabre aspect of the human skull, he chooses to place it on its side - as if sleeping - while at the same time making it useful. It's a bold statement, full of wit and attitude. The skull acts as a bowl, and what you decide to put in it - a simple flower, coloured candies, pens and pencils - allows you to make your own statement about life... and death. The skulls come in three iterations of glass: crystal clear, opaque white, and jet black, each one providing a striking addition to any room.

From the designer Tamer Nakışçı this trio of vases are made in an extraordinary clear yet corrugated glass. The rippled effect creates an optical illusion reflecting the different colours of the contents in an almost magical way. Flowers particularly are beautifully presented in these vases, the undulation blurring the stems, bringing into focus the colour of the petals.

Like the inimitable French headgear, these lidded vessels are remarkable for their elegant, effortless simplicity. Lids crafted from silky-looking brass close over softly tinted glass containers-in three sizes-like the tasteful toppers of the Basques people, who originated the beret.

An innovative range comprising of two elegant crystal vases and two bowls all with an arresting copper base. At once solid yet ethereal, the vases seem to disappear as they reach their apex, allowing the contents to take over the drama. The base suggests the vases are separated into three layers - metal, liquid, air - creating superb visual impact.

Lead free crystal glass - its benefits.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. Nude understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process. It has a ~99% transmission of light and the glass itself has a reflective index of >1.520 reducing chromatic aberration and intensifying its sparkle. The glass is also distinguished by its superior sound, delivering a sharper, more resonant ring. Our glassware can thus be appreciated by all four senses!
